
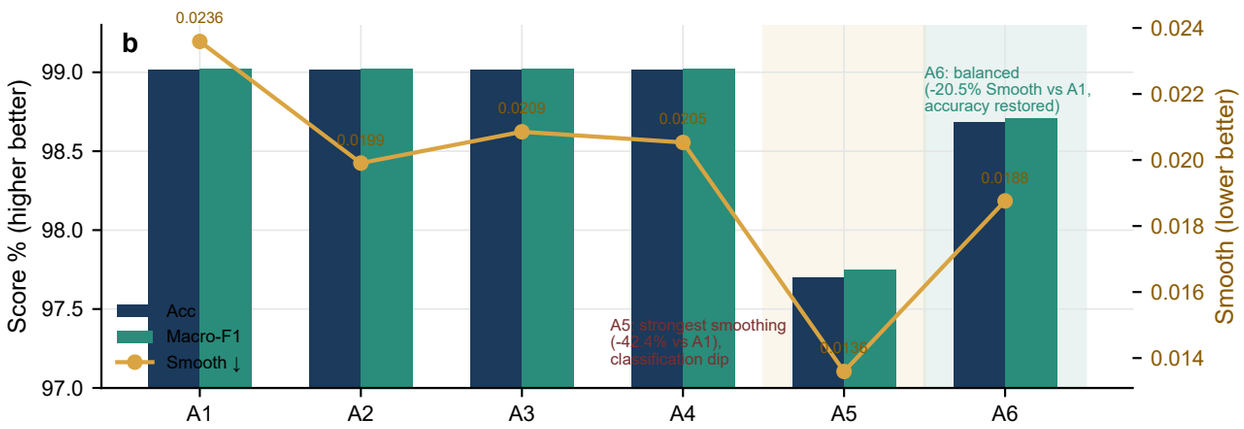
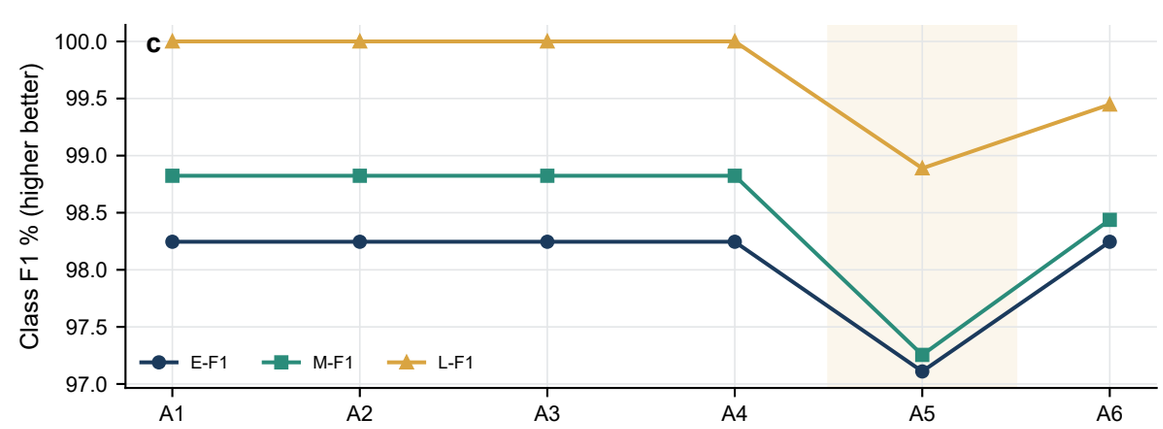
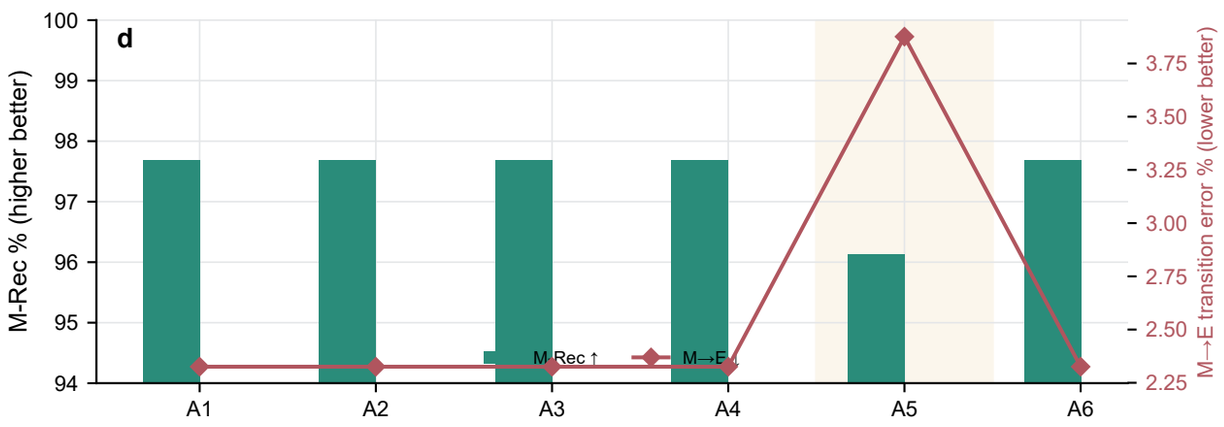
Mechanism evidence path: A1→A6 module progression (Δ vs. A1, from A1_A6_delta_vs_A1.csv)



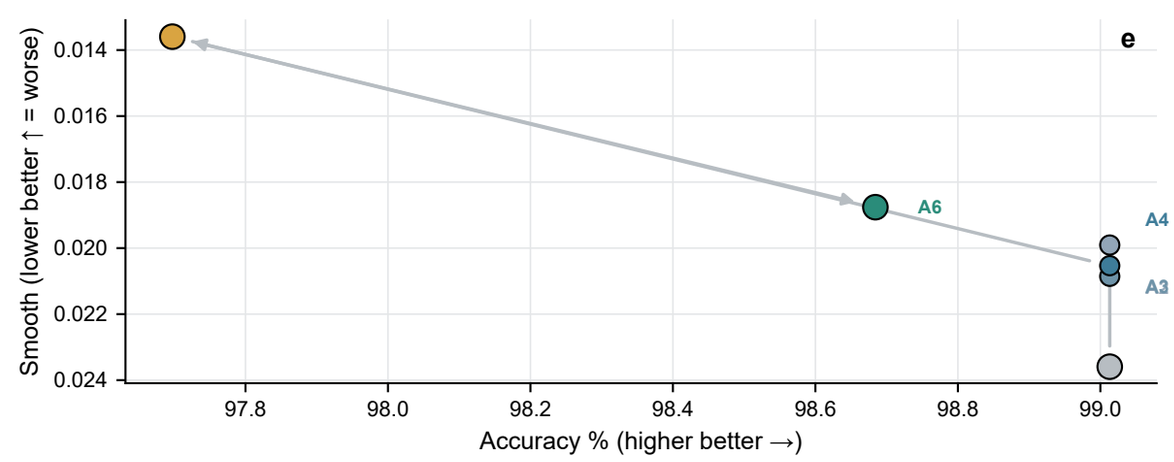
Overall predictive performance across A1–A6



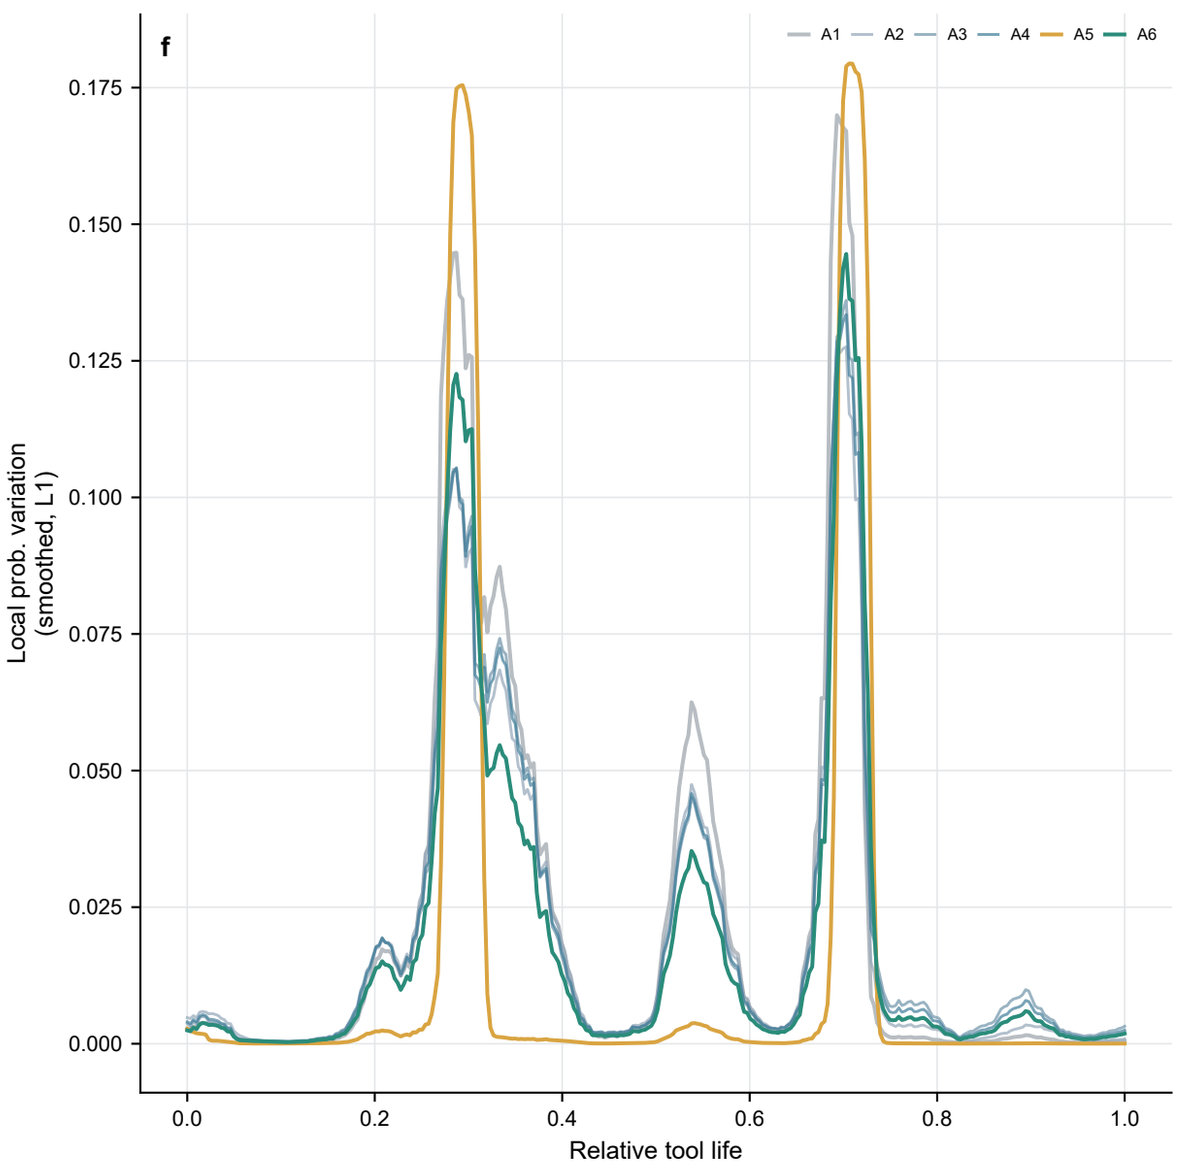
State-wise recognition profile (E/M/L-F1)



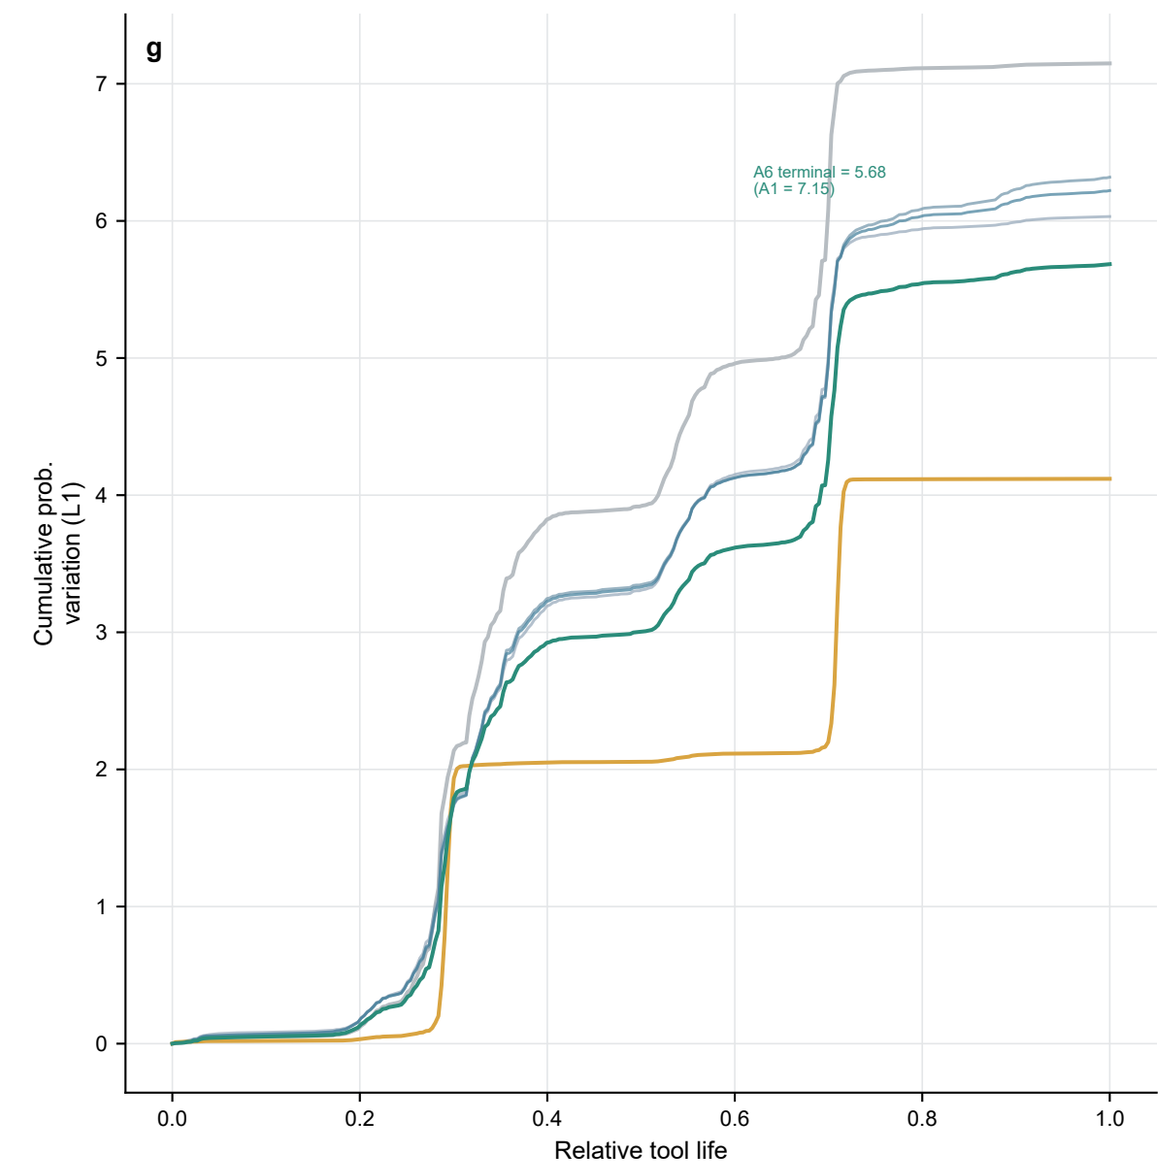
Middle-stage recall & M→E transition error



Ablation Pareto trajectory, A1→A6 (arrows show module-progression order)



Lifecycle local probability variation



Cumulative probability variation
